

Dear Knights of Columbus Scholarship committee

My name is John Henning and I am applying for the academic scholarship offered from you. I am applying for this scholarship for financial aid during my college career. I am a senior graduating from Walker-Hackensack-Akeley High School in May. I plan to further my career at Alexandria Technical and Community College for their Powersports, Marine and Motorcycle course. I plan to return to the area and one day hopefully own and operate my own business.

Growing up I always went to church every Sunday no matter where we were and I also attended every holy day of obligation. It has always been normal for me and my family. My family and I are already very involved in church, from altar serving to ushering, decorating for the different seasons, and helping with events at church. I want to grow closer to traditions even more by being able to attend weekday mass after high school, that gives me that time to be able to attend weekday mass because I will not have school.

After moving to a different city for college I have always felt going to church even without my parents as normal. I still plan to attend church every Sunday as if I was at home with my family. At this point in time God is calling me to be a disciple and help others which I have done by volunteering at food shelves and second hand stores.

I thank you for taking the time to read and consider my application. I look forward to hearing from you soon.

Sincerely,

John Henning
